

CELMINA

Email Marketing

Design, Performance & Onboarding

Classify | Connect | Convert

Classify your audience → Group your audience based on behaviors, preferences, and needs.

You can **use Flow Triggers** to connect with each group, based on when they take certain action.

Guide your audience **toward conversion** with clear, compelling calls to action.

Educate | Target | Sell

Start by educating your audience—not with a **one-size-fits-all** approach, but by crafting messages that resonate specifically with targeted groups.

Understand their needs and preferences, and provide them with **valuable, relevant information** that keeps them informed and engaged.

Initiate each campaign by **focusing** on what's **valuable** for them, not just what benefits you.
